**Regarding: School Meals Programs' Buy American Provision (FNS SP 23-2024)**

Dear Valued Customer:

On April 25, 2024, FNS published the final rule, [Child Nutrition Programs: Meal Patterns Consistent With the 2020-2025 Dietary Guidelines for Americans](#) (89 FR 31962). Among other provisions, this rule finalizes regulations that strengthen the School Meal Programs' Buy American provision.

The Buy American provision requires School Food Authorities to purchase, to the maximum extent practicable, domestic commodities or products. Domestic products are food products processed in the United States using agricultural commodities that are over 51 percent domestically grown. The Buy American threshold requirement is an important provision that helps implement the mission of the school meal programs specified at Section 2 [42 USC 1751] of the Richard B. Russell National School Lunch Act to "...encourage the domestic consumption of nutritious agricultural commodities and other foods..." for school children.

The Buy American provision applies to school food authorities located in the 48 contiguous United States.<sup>1</sup> Program regulations that govern this provision apply to school food authorities that operate the National School Breakfast and/or Lunch Programs and are found at [7 CFR 220.16\(d\)](#) and [7 CFR 210.21\(d\)](#), respectively. SFAs must comply with the Buy American provisions in the School Breakfast Program (SBP) and National School Lunch Program (NSLP) when purchasing commercial food products served in school meals, including that no more than ten percent of total commercial food costs in School Year 2025-2026 are spent on non-domestic food purchases.<sup>2</sup>

Thank you for your interest in using our products as part of your SBP and NSLP. The table herein outlines WK Kellogg Co's K-12 foods that comply with the Buy American Provision and may not be comprehensive to include all products within our portfolio that meet the Buy American provision.

I certify that the above information is true and correct, on information and belief, and that each WK Kellogg Co product listed in the table that follows fulfills the requirements of the Buy American provision.

Respectfully,

*Mariaelena Cona*

<sup>1</sup> Although Alaska, Hawaii, and the U.S. territories are exempt from the Buy American provision, SFAs in Hawaii are required to purchase food products produced in Hawaii in sufficient quantities. Likewise, SFAs in Puerto Rico are required to purchase food products produced in Puerto Rico in sufficient quantities.
