Announcement: New Buy American Compliance for The SWITCH 8oz Cans

August 21st, 2026

Dear Valued School Partners and Distributors,

We are excited to announce that beginning with the start of the 2026/2027 school year, all flavors of **The SWITCH** Sparkling 100% juice cans, specifically Black Cherry, Kiwi Berry, Watermelon Strawberry, Fruit Punch & Orange Tangerine— will be fully compliant with the Buy American provisions as outlined by the USDA, meaning the items will be processed in the U.S. and contain more than 51% U.S.-grown agricultural food components by weight or volume. This significant update means these popular sparkling juice options meet the requirements for sourcing and production within the United States.

We appreciate your continued partnership and dedication to providing students with high-quality, nutritious beverages. If you have any questions regarding this update or need additional information, please do not hesitate to reach out to our team. Thank you for your ongoing support and commitment to excellence in school nutrition.

Sincerely,

Bill Harrison
